Just a few tips for signing in later:

You DO NOT need a password; however, you must verify your e-mail account with each session, so be sure you can access your e-mail wherever you are signing in. Good News--you do not have to be on the same devices to do this and gain access. For example, you can sign on from your laptop or computer and verify your e-mail from your smart phone. The verification is not device sensitive.
